

# PYTHON IN 10 VIDEOS

Assignment - 5

1. Write a function that copies the contents of a file named **source.txt** to a new file named **destination.txt**.

**2. Write a function that reads the contents of a file named `document.txt` and returns the number of words in the file.**

**3. Write a function that merges the contents of multiple files into a single file named `merged.txt`.**

**4. Write a function that reads a CSV file named `data.csv` and prints its contents as a list of dictionaries.**

**5. Write a function that attempts to read a file named `protected.txt` and handles any permission errors gracefully by printing an error message.**
